ITMS

A New Way of Banking

Our Interactive Teller Machines (ITMs) resemble ATMs, but there's one significant difference – you can now communicate with a personal teller via live video, all from the comfort of your vehicle.

What Are the Benefits of an ITM?

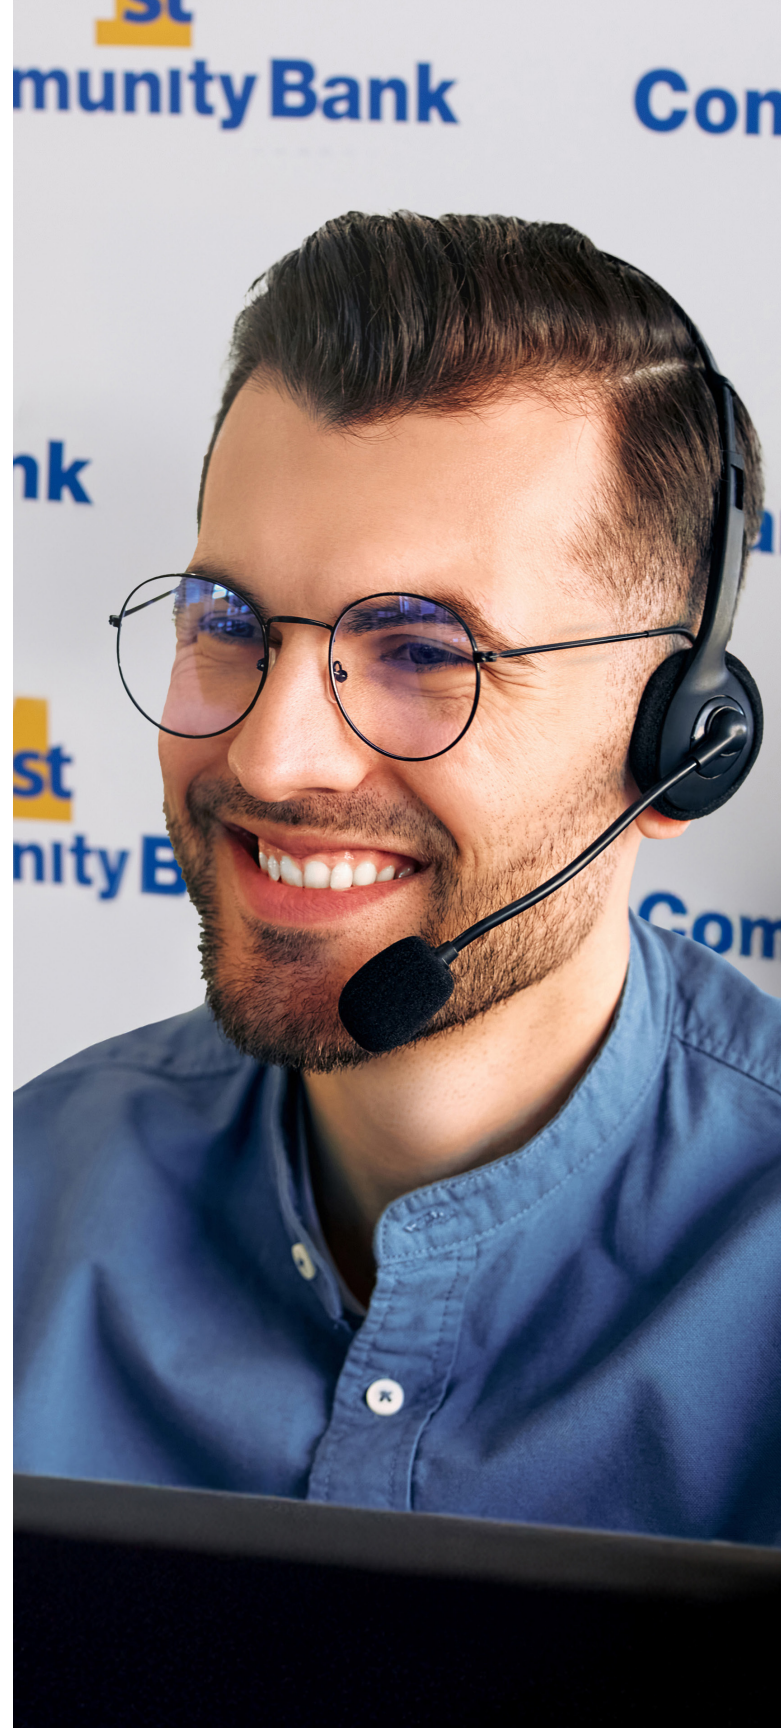

Our ITMs offer extended hours beyond our regular bank hours, allowing you to perform transactions as if you were speaking with a teller at our traditional drive-thru service.

With the assistance of our ITM virtual personal teller, you can complete a variety of transactions:

- Make deposits (no deposit slips needed!)
- Make cash withdrawals of up to \$2,500
- Cash "on-us checks" up to \$2,500 (includes non-customers)
- Make loan payments
- Balance inquiry

How Do I Use an ITM?

To use our ITM, simply touch the screen to activate the two-way video function feature. Once the screen is activated, one of our virtual personal tellers will come online to assist you. The teller will guide you through your transaction just as they would in person.
